[Managing a pile-up as W1AW](#)

KK4DSD operated as W1AW/4 on RTTY on the 40 meter band. He managed to create an utterly evil pile-up that spanned nearly 6 kHz at its widest.

[The noise whisperer](#)

This past Friday, I had a very pleasant visit from Roy Charlesworth. Roy is the noise mitigation man for naughtv power lines and made his way to Mavne Island on the morning ferry from the mainland.

Panama Canal special event

Amateurs of the Republic of Panama is celebrating the 100th anniversary of the Panama Canal. They will be operating the special event station HO100CANAL. Operation will take place from 10 m to 160 m on SSB, PSK, RTTY and CW.

And finally...

Saddest QSO

Finally spotted W1AW on JT65, but luck wasn't in my favor.
